

# **AEP Cloud**

Intelligent Labelling & Automation

AEP Cloud is a scalable and adaptable solution that simplifies labelling and automation processes. Designed to enhance efficiency and operational control, it offers businesses flexible service tiers to meet their unique needs.

## Freemium Features: Get Started with Essential Functions

Basic functionalities Freemium refers to functionalities available at no cost when certain prerequisites are met. For example, when a printer is installed, relevant functions become accessible upon request without additional charges.

### Included Freemium Functions:

**Link Printer:** Monitor printer status and counters remotely.

## Boxed Solutions Standardised Efficiency

These solutions operate under predefined modules with specific functionalities, making them efficient and reliable. Standardised and suitable for general use, they require little customisation, ensuring easy implementation and broad applicability.

### Key Benefits:

- ✓ **Preconfigured** for quick deployment and easy integration.
- ✓ **Suitable for businesses** that require a straightforward, reliable solution.
- ✓ **Reduces implementation costs** and IT complexity.

## Unboxed Solutions Fully Customised Solutions

When a boxed solution is customised to meet a customer's unique requirements, it becomes an unboxed solution. These solutions are tailored to reflect specific customer processes and workflows, accommodating features such as handheld device or IoT integration, as well as printing capabilities based on the client's needs.

### What Unboxed Solutions Offer:

- ✓ **Custom workflow** adaptation to fit specific business operations.
- ✓ **Integration** with handheld devices and IoT systems.
- ✓ **Advanced printing capabilities** tailored to business-specific needs.

## Add Ons

### Enhance Any AEP Cloud Solution

AEP Cloud provides additional functionalities to enhance performance and expand capabilities across all service tiers. These add-ons ensure that businesses can **optimise operations** as they grow.

#### Available Add-Ons:

- ✓ **Cloud Print** – Enable remote printing capabilities.
- ✓ **Standard API** – Facilitate advanced system integrations.
- ✓ **Consumption Monitoring** – Track and optimise usage.
- ✓ **Dashboard & Reporting** – Gain insights into performance and operations.

Each add-on enhances the user experience, ensuring businesses maintain efficiency and control over their labelling processes.

## Unlock AEP Cloud Benefits – Free to Start!

#### FLEXIBLE SERVICE TIERS

Choose the right level of functionality to match your business needs.

#### SCALABLE GROWTH

Upgrade seamlessly as operations evolve.

#### IMPROVED EFFICIENCY

Automate labelling processes with minimal IT intervention.

#### ENHANCED CONTROL

Gain real-time insights with cloud-based management tools.

AEP Cloud is built for **efficiency, flexibility, and reliability**—delivering **powerful labelling solutions** that grow alongside your business.

## A Scalable Approach: From Freemium to Full Customisation

AEP Cloud's service structure is designed as a **progressive ladder**, allowing businesses to scale seamlessly from **Freemium** to **Boxed Solutions**, and ultimately, to **Unboxed Solutions**.

#### Freemium

Entry-level access with essential functionalities.

#### Boxed Solutions

Standardised, pre-configured modules for quick deployment.

#### Unboxed Solutions

Fully customisable to align with specific business needs.

This flexible approach ensures that businesses can start small and expand their labelling capabilities **without unnecessary complexity**.
