

# SATO Application Storage: Cloud-Based Data Management Service.

Enjoy a new level of efficiency & peace of mind  
with real-time data anytime, anywhere

## SATO APPLICATION STORAGE ENSURES

- ✓ All printers on-site are using the latest meta data
- ✓ Meta data is managed and stored centrally
- ✓ No meta data re-installations are required when printers break down
- ✓ Uniformity of operations

**1** Enables consistent accurate label meta data for printing

**2** User control with different hierarchy levels

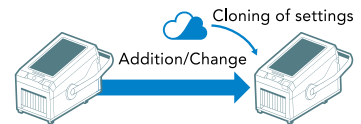

**3** Tracks downloads of label printing applications

## SATO APPLICATION STORAGE

SATO Application Storage delivers ground-breaking management of label printing applications to achieve higher productivity and ensure installation across the entire printer fleet

**4** Simplifies addition or change of printers

**5** Streamlines printing with data provided by SATO applications

**6** Ensures optimum security

**SOS**  
SATO Online Services

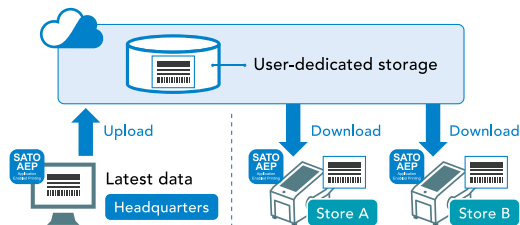

Increase security of operations with  
the addition of SATO Online Services

A cloud-based IoT-enabled virtual engineer  
solution that reduces printer downtime

- Monitors operation status of printers in the cloud
- Enables on-the-spot troubleshooting, without the need for an on-site engineer
- Detects potential issues in advance

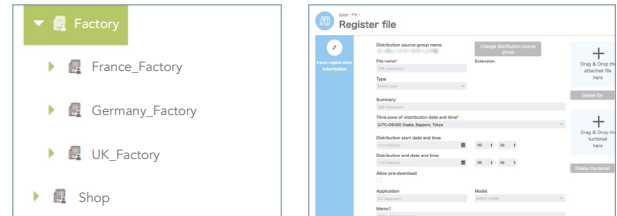

# 6 Core Features Explained

## 1 Enables consistent accurate label meta data for printing

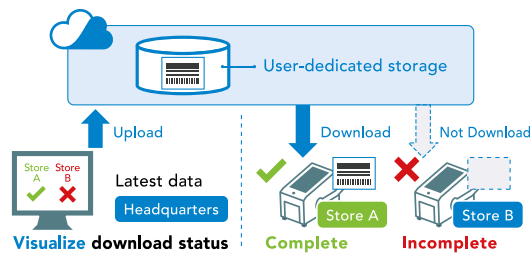

- Manage label printing applications centrally in the cloud
- Schedule and match data updates to seasonal changes or price revisions
- Download applications to SATO printers anytime, anywhere

## 2 Manage hierarchical groups or register files

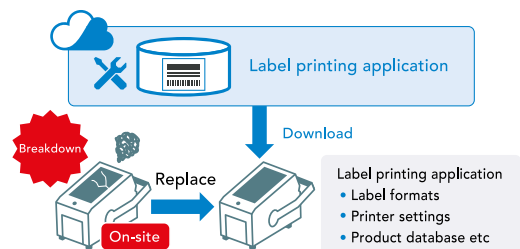

- Flexibly configure hierarchy and authority levels and permissions based on customer needs
- Upload multiple files for updating data via drag-and-drop functionality
- Customers can grant file or account registration rights to external users

## 3 Track downloads of label printing applications

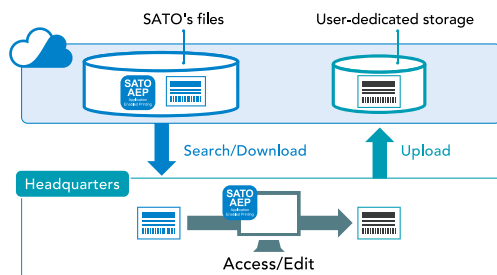

- Customers can easily check if their on-site printers have the latest applications in use

## 4 Simplifies additions or change of printers

- Label printing applications saved in the cloud can be easily downloaded and installed on newly added or replaced printers
- Improve productivity on local or global labelling operations

## 5 Streamlines printing with data provided by SATO

- SATO Application Storage can be used with existing label printing applications and data formats provided by SATO

## 6 Ensures optimum security

- Based on the latest cloud computing technology providing verified security, safety and high availability
- Intrusion Prevention System (IPS) protects against vulnerabilities
- SSL/HTTPS communication provides encrypted security protection
- Uploaded files are scanned for viruses and spyware

### Browser requirements:

Windows: Chrome, Microsoft Edge.

Users need to register for an account to use the SATO Application Storage service. As a best-effort cloud service, SATO Application Storage connection performance may fluctuate during peak usage hours. 25MB file size limit applies for data uploads as of February 2019.
