

Because Staff & Patient safety is a common goal for all of us

## SATO introduces Healthcare Patient Safety Starter Packs.

To support the growing need of healthcare supplies due to the COVID-19 pandemic, SATO is introducing antimicrobial healthcare packs to provide ready-to-use solutions for hospitals, clinics, pop-up field hospitals and testing sites.

### ONE SOLUTION FOR MULTIPLE APPLICATIONS

Specimen & Sample Labels . Testing Labels . Lab Labels Safety/Warning Labels . Patient Identification Wristbands

### EACH STARTER PACK INCLUDES

**WS2 Compact Printer**

Antimicrobial and disinfectant-ready, the WS2 printer is ideal for healthcare organizations in need of a high-quality compact printer able to print both wristbands and labels.

**Safety Band DT Line Wristbands**

Comfortable, durable, antimicrobial and non-skin irritant, the SATO Safety Band DT Line wristbands remain legible after exposure to water, abrasion, hands disinfectants, cleaners and everyday wear. Comes in its adhesive closure version with a tamper proof system.

**Specimen / Samples DT Labels (50 x 25 mm)**

Top coated PP direct thermal labels with permanent adhesive tailored for patient specimen and samples collection application in hospitals. Withstand harsh environmental conditions and print without the need of thermal transfer ribbon.
